

120GAL Decarbonator Specification Sheet

Product Description

The DECARBONATOR® is a high-performance appliance designed for commercial kitchens and bakeries to efficiently remove carbon buildup and grease from metal and aluminum kitchen equipment. Constructed from stainless steel, it is fully insulated and provides the most cost-effective and efficient method for deep cleaning kitchen equipment and accessories. It is a stand alone unit that requires no plumbing.

Accessories Included

Accessory	Description
Lifting Basket	Facilitates loading and unloading
Drain Hose and adaptor	Used for draining tank
Grab Hook	Used to lift items and dislodge debris blocking drain valve

Special Features

Features	Description
H120 Manual hoist	Optional add on hoist

Key Features

Feature	Description
Friction Hinges	Allows steam to escape, prevents crush injuries
Fill Line (Embossed)	Easy water level identification
Lid with Gasket	Reduces odors, collects condensation, adds workspace
Lid Handle	Full-length for easy lifting, prevents wrist scalding
Velcro Strap Storage	Stores power cord and drain hose securely
Stainless Steel Casters	Two locking, two non-locking for mobility
Control Panel Indicators	Power, heater, monthly timer, reset switch
Troubleshooting Feature	Manual reset thermostat on back panel

Benefits

Benefit	Description
Fast & Efficient Cleaning	Saves time and effort in deep cleaning kitchen equipment
Energy Efficient	Low power consumption with high performance
Durable Stainless Steel Build	Long-lasting and corrosion-resistant
Safety First	Designed to prevent injuries and operational hazards

Certifications & Compliance

Certification	Details
SA44909 - Sanitation NSF/ANSI 169 Certified	Ensures food safety standards. Meets sanitation regulations
E495028 - Commercial Dishwasher Safety Listing	Certified safe for commercial kitchen use
FY160801691C - European Conformity Safety Listing	Certified safe for commercial kitchen use
